

Simple Machines Worksheet

Name _____

Label the station, describe the procedures you followed, and find the IMA, AMA and Efficiency.

	$\text{IMA} = \frac{\text{Distance you move}}{\text{Distance it moves}} = \boxed{}$	$\text{AMA} = \frac{\text{Force you measure}}{\text{Force of mass}} = \boxed{}$
---	--	--

<p>Procedures you followed:</p>	$\text{Eff.} = \frac{\text{IMA}}{\text{AMA}} = \boxed{}$
---------------------------------	---

	$\text{IMA} = \frac{\text{Distance you move}}{\text{Distance it moves}} = \boxed{}$	$\text{AMA} = \frac{\text{Force you measure}}{\text{Force of mass}} = \boxed{}$
--	--	--

<p>Procedures you followed:</p>	$\text{Eff.} = \frac{\text{IMA}}{\text{AMA}} = \boxed{}$
---------------------------------	---

$$\text{IMA} = \frac{\text{Distance you move}}{\text{Distance it moves}} = \boxed{}$$

$$\text{AMA} = \frac{\text{Force you measure}}{\text{Force of mass}} = \boxed{}$$

Procedures you followed:

$$\text{Eff.} = \frac{\text{IMA}}{\text{AMA}} = \boxed{}$$

$$\text{IMA} = \frac{\text{Distance you move}}{\text{Distance it moves}} = \boxed{}$$

$$\text{AMA} = \frac{\text{Force you measure}}{\text{Force of mass}} = \boxed{}$$

Procedures you followed:

$$\text{Eff.} = \frac{\text{IMA}}{\text{AMA}} = \boxed{}$$
