BK CREST
The crest should appear in full color (Black and Kelly Gold) or black and white. It can be reversed to white on a dark background.
Official Mark - Incorrect Usage

To ensure a strong and cohesive impression across all communications, every logo reproduction must be applied clearly and consistently. Below, please note a few examples of incorrect logo usage for the primary mark.

- Do not change the logo colors.
- Do not reposition the elements within the logo.
- Do not use a low-resolution (less than 300 dpi), unless published online.
- Do not squeeze, skew or reverse the logo.
- Do not alter the typeface in anyway
**Primary Mark - Clear Space**

To maintain the integrity of the logo, a minimum amount of clear space has been established. No other element (such as text or images) should appear within the clear space. When possible, the shield should be used.

Clear space is developed from the height of the boy in the shield and is shown as “x.”

---

**Minimum Size Logo**

The entire logo should never appear smaller than $\frac{3}{4}''$ in total width. In certain cases (such as pens) in which the logo must appear less than $\frac{3}{4}''$ wide, it will be necessary to drop the words HIGH SCHOOL and/or the shield.
Primary Typefaces

To reinforce the Bishop Kelly High School brand identity, standard typefaces have been selected to be used in all promotional and correspondence material. When used in conjunction with the BK crest, they reinforce our Brand Look. All typefaces are suitable for a variety of communication materials, such as letters, memos and marketing brochures.
